## 1 Trick For a Tiny Belly: Reporter Loses Her "Belly" Using 1 Easy Tip

As part of a new series: "Diet Trends: A look at America's Top Diets" we examine consumer tips for dieting during a recession

Julia investigates the [HCG](#) diet to find out for herself if this super diet works.

Everywhere you look there's an internet blog, an ad, or a doctor calling hCG the new miracle diet that will stimulate weight loss. But can this little bottle live up to all the hype? Or have we embraced the latest Hollywood trend without real merit or scientific evidence that hCG can really help you cinch those pounds & inches?

But we here at News 6 are a little skeptical and aren't sure that we've seen any real proof that these pills work for weight loss. So we decided to put these products to the test. What better way to find out the truth than to conduct our own study?

To get started, I volunteered to be the guinea pig. I applied for a bottle of the [HCG Activator](#). While there are tons of HCG ads online, [HCG Activator](#) is one of the most credible and trustworthy suppliers on the market. It included the free trial of the product and it did not try to fool me into agreeing to additional hidden offers. Another reason why I chose [HCG Activator](#) is because it is the most concentrated and purest HCG products on the market. This would give me the most accurate results for my test.

### Here is what HCG Activator claimed on their website...

- Accelerates Fat Loss
- 4 Times More Weight Loss Than Diet And Exercise
- Boosts Energy
- Rich in Antioxidants

We were pretty skeptical, but wanted to find out for ourselves if this product could actually do everything that it claimed. Most of the success stories talk about combining [HCG](#) with colon cleansing products to achieve maximum weight loss. I decided to do the same. The idea behind combining the products is that while the [HCG](#) encourages weight loss and increases energy, the South Beach Java helps rid your body of toxins and allows your body to work and burn calories more efficiently. I chose [South Beach Java](#) to test.

### Here is what South Beach Java claimed on their website...

- Burns Body Fat
- Curbs Appetite Dramatically
- Speeds Up the Metabolic Process- Therefore Burning More Calories
- Boosts Metabolism by 4x

And the South Beach Java, like the [HCG](#), had a free trial with a 100%

## Putting HCG to the Test

Both the [HCG Activator](#) and [South Beach Java](#) arrived within 4 days of having placed my order online for the free trials.

The bottles I received held a month's worth of pills which worked out perfect as I was to follow the supplement routine for 4 weeks time and document my progress throughout.

## My Test

### 4 Week HCG Diet: HCG Activator + South Beach Java

- [Take one HCG Activator pill per day](#)
- [Take one serving of South Beach Java per day](#)

## My Results

### Week One

After one week on the diet using both products I was surprised at the dramatic results. My energy level was up, and I wasn't even hungry, an apparent side effect of the [HCG](#) which curbs the appetite.

I honestly felt fantastic.

And I didn't even change anything about my daily routine. On day 7 I got on the scale and couldn't believe my eyes. I had lost 9 lbs. But I still wasn't convinced as they say you lose a lot of water at the beginning of any diet. I wanted to wait and see the results in the upcoming weeks. But it sure was looking up! I now weighed under 140 lbs for the first time in years!

### Week Two

After two weeks of using both supplements, I started the week off with even more energy and was actually sleeping more soundly than before. I was no longer waking up during the night and tossing and turning because my body was actually able to relax (this is a result of getting rid of the toxins I think). Plus I still managed to lose another 7 lbs, putting me at an unbelievable 16 lbs of weight loss, in just 2 weeks.

I must admit that I'm starting to believe that this diet is more than just a gimmick.

### Week Three

After 3 weeks all my doubts and skepticism had absolutely vanished! I am down, 2 full dress sizes, after losing another 6 lbs. And I still have a ton of energy. Quite often, around the third week of other diets, you tend to run out of steam. But with the HCG Activator and South Beach Java diet my energy levels don't dip, but remain steady throughout the day. I no longer need that cat nap around 3pm in the afternoon! And I am even noticing that my stomach is digesting food so much better. No bloating or embarrassing gas after I eat!

### Week Four

After the fourth week, my final results were shocking. I lost an unbelievable 25 lbs since starting the [HCG Activator](#) and South Beach Java diet! Actually everyone at News 6 is kicking themselves for not having volunteered to be the guinea pig. Using the HCG Activator and South Beach Java in week 4 I lost 3 more lbs. But to be honest I really didn't have much more than that left to lose. Given the results and the added health benefits I will continue to use the products indefinitely!

**I couldn't be any happier with the results.**

### I Lost 25 lbs in 4 Weeks, No Special Diet, No Intense Exercise

**Conclusion:** Like us, here at News 6, you might be a little doubtful

## » Weight Loss Tips

1. Set a goal. Identify your ideal weight and set up a plan to start reaching your goal.

2. Don't be afraid to ask for and get help. You're not going to lose weight alone. Tell your family. Get support.

3. Vitamins are good for you. The American diet lacks essential vitamins and minerals. Balance your health with the best supplements.

4. Walk the Walk. You burn calories when you walk, did you know that? Keep active and balance your diet with regular exercise.

5. Sleep it off. To be an efficient fat-burning machine, your body requires at least eight hours of sleep a night. If you think that you're doing yourself a favor by sleeping less, you're mistaken.

about the effects of this diet, but you need to try it for yourself; the results are real. After conducting our own personal study we are pleased to see that people really are finding success with it (myself included :)). And you have nothing to lose. Follow the links to the free trials I have provided and know that you are getting a quality product that works; no strings attached!

Good luck with your weight loss,

### WHAT IS HCG? AND IS IT SAFE?

HCG (or Human Chorionic Gonadotropin, as it is medically known) allows the body to burn excess bodyfat by using that fat as a food source. HCG helps make up the difference in the calories it needs to function by using your stored fat as food. As a result, you will burn fat more quickly, and from areas that are typically harder to reduce. An additional benefit of HCG is that you will feel less hunger cravings and desires to snack between meals, despite undergoing a restrictive-calorie diet. This will help you maintain your diet and improve your motivation to continue.

HCG is safe to use. As evidenced by over 47 clinical studies, and after being used successfully by thousands of patients since 1954, HCG had been medically claimed as safe and free of any unwanted side effects. HCG Activator is 100% stimulant free, and is derived from certified premium grade raw materials (the very purest materials available) which are then processed according to GMP (Good Manufacturing Practices), made in the U.S.A.

And to help you succeed, the official "HCG Diet Plan" is

Foods that Fuel Weight Loss

"Super foods are becoming a real source in the battle to fight fat..."

## Acai Berry Diet Exposed: Miracle Diet or Scam?

As part of a new series: "Diet Trends: A look at America's Top Diets" we examine consumer tips for dieting during a recession

Julia investigates the Acai Berry diet to find out for herself if this super diet works.

The Acai berry: secret weight loss drug or latest online scam? When you weigh the evidence, it's hard to be sure. On the one hand, the Internet is ablaze with stories of the wonders of the Acai—from first hand tales of weight loss success to doctors' scientific justifications. On the other hand, it's difficult to verify the truthfulness of this type of online claim. Instead of trying to sort out the truth from the marketing attempts, we here at News 8 took matters into our own hands. After all, what better way to find out the truth than to conduct our own study?

To get started, I volunteered to be the guinea pig. I wanted to test this claim for my Internet audience, and I figured that any weight loss that I experienced would be a welcome bonus. What I wasn't looking

for, though, was dangerous side effects or memberships to online weight loss programs where I would be spammed and probably scammed out of some cash. For this reason, I applied for a bottle of the [Lean Spa \(Acai Berry\)](#). While turning every virtual corner will reveal another advertisement for an Acai supplement, [Lean Spa \(Acai Berry\)](#) is one of the most credible and trustworthy suppliers on the market. I read the fine print, and Lean Spa (Acai Berry) didn't come with unwanted and expensive memberships. It was also the most concentrated Acai berry product I could find, which made me conclude that [Lean Spa \(Acai Berry\)](#) was the safest and probably most powerful Acai weight loss product online. At least, it was the product I trusted most for my study.

### Here is what Lean Spa (Acai Berry) claimed on its website:

- 4 Times More Weight Loss Than Diet And Exercise
- Boosts Energy
- Rich in Antioxidants
- Promotes Cardiovascular and Digestive Health

When I first read these goals, I have to admit that I thought they were too good to be true, but I wanted to test the product for myself, so I did my best to withhold judgment. In fact, I did everything I could to make sure I was successful—including incorporating colon cleansing into my diet regimen. Most of the Acai success stories talk about combining the berries with colon cleansing products to achieve maximum weight loss, so I decided to do the same. Most [Lean Spa \(Acai Berry\)](#) success stories stress the fact that the berry encourages weight loss and increases energy, while the colon cleanse helps rid your body of toxins and allows it to burn calories more efficiently. Even though this advice seemed to make sense, I was still skeptical, but I decided to use [Advanced Cleanse](#) for my test.

### Here is what Advanced Cleanse claimed on their website...

- Helps Eliminate Bad Toxins that have Built Up Over the Years
- Removes 'Sludge' from the Walls of the Colon
- Helps Get Rid of Gas and Bloating
- Helps to Regulate the Metabolism

Both Advance Cleanse and Lean Spa (Acai Berry) offered trials with a 100% satisfaction guarantee, and neither product required that I sign up for penny pinching trial memberships with fitness and weight loss programs. These

problems have turned me off from weight loss products in the past. Even if a product is effective, no one wants to deal with spam and hidden costs even if it means loosing a little weight.

### Putting Acai to the Test

I didn't have to wait long to start my trial. Both the [Lean Spa \(Acai Berry\)](#) and [Advanced Cleanse](#) arrived within 4 days of having placed my online order for the free trials. Each bottle contained a month's worth of pills-plenty to help me decide whether or not they were working for me. I decided to proceed by taking both pills for four weeks and documenting my progress.

#### My Test 4 Week Acai Berry Diet: Lean Spa (Acai Berry) + Advanced Cleanse

- [Take one Lean Spa \(Acai Berry\) pill per day](#)
- [Take one Advanced Cleanse pill per day](#)

#### My Results:

##### Week One:

I actually didn't expect to see any dramatic results within the first week, but the products surprised me. After just a few days of taking the pills, felt like I had more energy, and I wasn't hungry, nor was I craving food. I'm pretty sure these were side effects of the Acai pills, and these side effects are the type I don't mind at all. Thanks to the pills, I felt fantastic. And this feeling can't be chalked up to "cheating." I didn't change my daily routine at all during this first week. I was feeling great by the end of the week, but that's not the best part. The best part is that I actually lost weight--5 pounds by day 7! This certainly raised my hopes, but I still wasn't convinced. I knew this could be water weight, and I wanted to complete the trial before I made any decisions about the success of the diet plan.

##### Week Two

In the second week of using the product, I experienced more beneficial side effects. First, I was able to sleep and relax like never before. Paired with the increased energy, my newfound ability to relax (which was probably a result of the colon cleanser) was improving my overall health. AND I continued to loose weight. After this second week, I had lost a total of 8 pounds, and I weighed less than I ever had before in my life! I was trying not to get my hopes up, but I was slowly loosing my skepticism at this point.

##### Week Three:

After 3 weeks and two sizes, I completely lost my reservations. I wanted to be an impartial observer to the end, but at this point, I failed. I was ecstatic! With most of the other diets I've tried, the third week also marked a change for me. Unlike with the Acai berry and Advanced Cleanse, however, other diets made me less hopeful around week 3. After seeing no results, I tended to loose steam. But with the Lean Spa (Acai Berry) and Advanced Cleanse diet, my energy levels didn't dip; they remained steady throughout the day. I noticed little fatigue, better sleep at night, and a more comfortable existence. By this week, I also noticed that I was feeling much better about digesting my food. Bloating was a thing of the past.

##### Week Four:

After the fourth week, my final results were shocking. I lost an unbelievable 12 lbs since beginning the Lean Spa (Acai Berry) and Advanced Cleanse diet! I didn't fall for any gimmicks, and I didn't have to sign up for any bogus trial memberships. Lean Spa (Acai Berry) and Advanced Cleanse did come with some side effects, though. It left me feeling rested, energetic, and I also noticed a drastic change in my complexion. Everyone at News 8 is really kicking themselves for not volunteering to the guinea pig this time around. As for this guinea pig, she'll be sure to order full size bottles of both products.

#### I couldn't be any happier with the results. I Lost 12 lbs in 4 Weeks; No Special Diet, No Intense Exercise

**Conclusion:** Diet pills have a bad reputation, and they certainly impacted my perception of the Acai berry and Advanced Cleanse diet. But after actually

**1. Set a goal.** Identify your ideal weight and set up a plan to start reaching your goal.

**2. Don't be afraid to ask for and get help.** You're not going to lose weight alone. Tell you family. Get support.

**3. Vitamins are good for you.** The American diet lacks essential vitamins and minerals. Balance your health with the best supplements.

**4. Walk the Walk.** You burn calories when you walk, did you know that? Keep active and balance your diet with regular exercise.

**5. Sleep it off.** To be an efficient fat-burning machine, your body requires at least eight hours of sleep a night. If you think that you're doing yourself a favor by sleeping less, you're mistaken.

trying these supplements, I found that they defied my expectations. And unlike other diet pills, the makers of both supplements are straightforward and to the point with what you should expect and what you have to do to get your free trial. You'll have to make your own decision about how you want to loose weight. But as for me, I recommend trying these products.

Good Luck with your weight loss

## Acai Berry Diet Exposed: Miracle Diet or Scam?

As part of a new series: "Diet Trends: A look at America's Top Diets" we examine consumer tips for dieting during a recession.

AS SEEN ON:

Jenna investigates the Acai Berry diet to find out for herself if this super diet works.

Acai berries are the latest weight management fad. These so called Super Foods that you take as a supplement to lose weight have been getting a lot of international attention. And like you have probably already seen; they are all over the internet in blogs and success stories of people who have apparently used the pills and lost a ton of weight. But we here at Evening 8 are a little skeptical and are not sure that we have seen any real proof that these pills work for weight management. So we decided to put these products to the test. What better way to find out the truth than to conduct our own study?

To get started, I volunteered to be the guinea pig. I applied for a bottle of the [Acai Energy](#). While there are tons of acai berry ads online, [Acai Energy](#) is one of the most credible and trustworthy suppliers on the market. It included the free trial of the product and it did not try to fool me into agreeing to additional hidden offers. Another reason why I chose [Acai Energy](#) is because it is the most concentrated and purest acai products on the market. This would give me the most accurate results for my test.

### Here is what Acai Energy claimed on their website...

- Up to 4 Times More Weight Loss Than Standard Diets
- Boosts Energy without the 'jitters'
- Burn Calories
- Boost Immune System
- Rich in Antioxidants

We're pretty skeptical, but wanted to find out for ourselves if this product could actually do everything that it claimed. Most of the success stories talk about combining Acai berry with colon cleansing products to achieve maximum weight loss. I decided to do the same. The idea behind combining the products is that while the [Acai Berry](#) encourages weight loss and increases energy, the colon cleanse helps rid your body of toxins and allows your body to work and burn calories more efficiently. I chose [Pure Cleanse](#) to test.

### Here is what Pure Cleanse claimed on their website...

- Helps Eliminate Bad Toxins that have Built Up Over The Years
- Removes "Sludge" from the Walls of the Colon
- Helps Get Rid of Gas and Bloating
- Helps to Regulate the Metabolism

And the Pure Cleanse, like the Acai Berry, had a free trial with a 100% satisfaction guarantee and had no hidden offers.

### Putting Acai to the Test

Both the [Acai Energy](#) and [Pure Cleanse](#) arrived within 4 days of having placed my order online for the free trials.

Jenna LeVance, our Health and Diet columnist, recently put the Acai Diet to the test. After four weeks of testing the effects of America's Newest Superfood combined with a Colon Cleanse, she has reached the conclusion to what this diet is all about, and the results were surprising

### She lost 25 lbs in 4 weeks.

The Acai Berry Diet benefits beat all of our initial skepticism. This diet was discovered to not only provide weight management, but also boost energy levels and helped Jenna with a better night's sleep and waking up more rested.

### Step 1:

First get the free trial of [Acai Energy](#)

Use our exclusive promo code "DISCSHIP" to reduce shipping from \$3.72 to \$0.99!

### Step 2:

Then get the free trial of [Pure Cleanse](#)

Use the promo code "SAVE" to reduce shipping from \$3.73 to \$0.99!

**This is key. Using both products is highly recommended for results like Jenna's.**

The bottles I received held a month worth of pills which worked out perfect as I was to follow the supplement routine for 4 weeks time and document my progress throughout

#### My Test 4 Week Acai Berry Diet: Acai Energy + Pure Cleanse

- [Take one Acai Energy pill per day](#)
- [Take one Pure Cleanse pill per day](#)

#### My Results

##### Week One

After one week on the diet using both products I was surprised at the dramatic results. My energy level was up, and I wasn't even hungry, an apparent side effect of the Acai Berry which curbs the appetite.

I honestly felt fantastic.

And I didn't even change anything about my daily routine. On day 7 I got on the scale and couldn't believe my eyes. I had lost 9 lbs. But I still wasn't convinced as they say you lose a lot of water at the beginning of any diet. I wanted to wait and see the results in the upcoming weeks. But it sure was looking up! I now weighed under 140 pounds for the first time in years!

##### Week Two

After two weeks of using both supplements, I started the week off with even more energy and was actually sleeping more soundly than before. I was no longer waking up during the night and tossing and turning because my body was actually able to relax (this is a result of getting rid of the toxins I think). Plus I still managed to lose another 7 pounds, putting me at an unbelievable 16 lbs of weight loss, in just 2 weeks.

I must admit that I'm starting to believe that this diet is more than just a gimmick.

##### Week Three

After 3 weeks all my doubts and skepticism had absolutely vanished! I am down, 2 full dress sizes, after losing another 6 pounds. And I still have a ton of energy. Quite often, around the third week of other diets, you tend to run out of steam. But with the Acai Energy and Pure Cleanse diet my energy levels don't dip, but remain steady throughout the day. I no longer need that cat nap around 3pm in the afternoon! And I am even noticing that my stomach is digesting food so much better. No bloating or embarrassing gas after I eat!

##### Week Four

After the fourth week, my final results were shocking. I lost an unbelievable 25 lbs since starting the Acai Energy and Pure Cleanse diet! Actually everyone at Consumers Digest Weekly is kicking themselves for not having volunteered to be the guinea pig. Using the Acai Energy and Pure Cleanse in week 4 I lost 3 more pounds. But to be honest I really didn't have much more than that left to lose. And I am definitely going to continue taking the Acai Energy afterwards because it has so many antioxidants and vitamins that makes my skin look unbelievable.

**I couldn't be any happier with the results.**

#### I Lost 25lbs in 4 Weeks, No Special Diet, No Intense Exercise

**Conclusion** Like us, here at Evening 8, you might be a little doubtful about the effects of this diet, but you need to try it for yourself; the results are real. After conducting our own personal study we are pleased to see that people really are finding success with it (myself included :)). And you have nothing to lose. Follow the links to the free trials I have provided and know that you are getting a quality product that works; no strings attached!

## Acai Berry Diet Exposed: Miracle Diet or Scam?

As part of a new series: "Diet Trends: A look at America's Top Diets" we examine consumer tips for dieting during a recession

**Karen** investigates the Acai Berry diet to find out for herself if this super diet works.

Acai berries are the latest weight loss fad. These so called Super Foods that you take as a supplement to lose weight have been getting a lot of international attention. And like you have probably already seen; they are all over the internet in blogs and success stories of people who have apparently used the pills and lost a ton of weight.

But we here at Channel 8 are a little skeptical and aren't sure that we've seen any real proof that these pills work for weight loss. So we decided to put these products to the test. What better way to find out the truth than to conduct our own study?

To get started, I volunteered to be the guinea pig. I applied for a free trial of [Acai Thermo](#). While there are ton's of Acai berry ads online, [Acai Thermo](#) is one of the most credible and trustworthy suppliers on the market. It included the free trial of the product and it did not try to fool me into agreeing to additional hidden offers. Another reason why I chose [Acai Thermo](#) is because it is the most concentrated and purest acai products on the market. This would give me the most accurate results for my test.

### Here is what Acai Thermo claimed on their website...

- Accelerates Fat Loss
- 4 Times More Weight Loss Than Diet And Exercise
- Boosts Energy
- Rich in Antioxidants

We were pretty skeptical, but wanted to find out for ourselves if this product could actually do everything that it claimed. Most of the success stories talk about combining acai berry with colon cleansing products to achieve maximum weight loss. I decided to do the same. The idea behind combining the products is that while the [Acai Berry](#) encourages weight loss and increases energy, the colon cleanse helps rid your body of toxins and allows your body to work and burn calories more efficiently. I chose [Advanced Trim](#) to test.

### Here is what Advanced Trim claimed on their website...

- Helps Eliminate Bad Toxins that have Built Up Over the Years
- Removes 'Sludge' from the Walls of the Colon
- Helps Get Rid of Gas and Bloating
- Helps to Regulate the Metabolism

And the Advanced Trim, like the Acai Berry, had a free trial with a 100% satisfaction guarantee and had no hidden offers.

### Putting Acai to the Test

Karen Lische, our Health and Diet columnist, recently put the Acai Diet to the test. After four weeks of testing the effects of America's Newest Superfood combined with a Colon Cleanse, she has reached the conclusion to what this diet is all about, and the results were surprising.

#### She lost 25lbs in 4 weeks.

The benefits of the Acai berry diet beat all of our initial skepticism. We found the diet not only with weight loss, but it seemed to boost energy levels, and also helped Karen sleep better and to wakeup more rested.

Both the [Acai Thermo](#) and [Advanced Trim](#) arrived within 4 days of having placed my order online for the free trials.

The bottles I received held a month's worth of pills which worked out perfect as I was to follow the supplement routine for 4 weeks time and document my progress throughout.

### My Test

#### **4 Week Acai Berry Diet: Acai Thermo + Advanced Trim**

- [Take one Acai Thermo pill per day](#)
- [Take one Advanced Trim pill per day](#)

### **My Results**

#### **Week One**

After one week on the diet using both products I was surprised at the dramatic results. My energy level was up, and I wasn't even hungry, an apparent side effect of the Acai Berry which curbs the appetite.

I honestly felt fantastic.

And I didn't even change anything about my daily routine. On day 7 I got on the scale and couldn't believe my eyes. I had lost 9 lbs. But I still wasn't convinced as they say you lose a lot of water at the beginning of any diet. I wanted to wait and see the results in the upcoming weeks. But it sure was looking up! I now weighed under 140 lbs for the first time in years!

#### **Week Two**

After two weeks of using both supplements, I started the week off with even more energy and was actually sleeping more soundly than before. I was no longer waking up during the night and tossing and turning because my body was actually able to relax (this is a result of getting rid of the toxins I think). Plus I still managed to lose another 7 lbs, putting me at an unbelievable 16 lbs of weight loss, in just 2 weeks.

I must admit that I'm starting to believe that this diet is more than just a gimmick.

#### **Week Three**

After 3 weeks all my doubts and skepticism had absolutely vanished! I am down, 2 full dress sizes, after losing another 6 lbs. And I still have a ton of energy. I no longer need that cat nap around 3pm in the afternoon! And I am even noticing that my stomach is digesting food so much better. No bloating or embarrassing gas after I eat!!

#### **Week Four**

After the fourth week, my final results were shocking. I lost an unbelievable 25 lbs since starting the Acai Thermo and Advanced Trim diet! Actually everyone at Channel 8 is kicking themselves for not having volunteered to be the guinea pig. Using the [Acai Thermo](#) and [Advanced Trim](#) in week 4 I lost 3 more lbs. But to be honest I really didn't have much more than that left to lose. Given the results and the added health benefits I will continue to use the products indefinitely!

**I couldn't be any happier with the results.**

#### **I Lost 10 lbs in 4 Weeks, No Special Diet, No Intense Exercise**

**Conclusion:** Like us, here at Channel 8, you might be a little doubtful about the effects of this diet, but you need to try it for yourself; the results are real. After conducting our own personal study we are pleased to see that people really are finding success with it (myself included :)). And you have nothing to lose. Follow the links to the free trials I have provided and know that you are getting a quality product that works; no strings attached!

1. Set a goal. Identify your ideal weight and set up a plan to start reaching your goal.

2. Don't be afraid to ask for and get help. You're not going to lose weight alone. Tell your family. Get support.

3. Vitamins are good for you. The American diet lacks essential vitamins and minerals. Balance your health with the best supplements.

4. Walk the Walk. You burn calories when you walk, did you know that? Keep active and balance your diet with regular exercise.

5. Sleep it off. To be an efficient fat-burning machine, your body requires at least eight hours of sleep a night. If you think that you're doing yourself a favor by sleeping less, you're mistaken.

Good luck with your weight loss,

## Acai Berry Diet Exposed: Miracle Diet or Scam?

As part of a new series: "Diet Trends: A look at America's Top Diets" we examine consumer tips for dieting during a recession

Julie investigates for herself the Acai Berry diet and if it works.

Acai berries are the latest weight loss fad. These "Super Foods" that you take as a supplement to lose weight have been getting a lot of international attention. And like you have probably already seen, they are all over the internet in blogs and success stories of people who have used them and lost a **ton of weight**.

- Promotes Cardiovascular and Digestive Health

Were pretty skeptical, but wanted to find out for ourselves if this product could actually do everything that it claimed. Most of the success stories talk about combining acai berry with colon cleansing products to achieve maximum weight loss. I decided to do the same. The idea behind combining the products is that while the [Acai Berry](#) encourages weight loss and increases energy, the colon cleanse helps rid your body of toxins and allows your body to work and burn calories more efficiently. I chose [Colon Cleanse](#) to test.

### Here is what Colon Cleanse claimed on their website...

- Helps Eliminate Bad Toxins that have Built Up Over the Years
- Removes 'Sludge' from the Walls of the Colon
- Helps Get Rid of Gas and Bloating
- Helps to Regulate the Metabolism

And the Colon Cleanse , like the Acai Berry, had a free trial with a 100% satisfaction guarantee and had no hidden offers.

Both the [Acai Berry](#) and [Colon Cleanse](#) arrived within 4 days of having placed my order online for the free trials.

The bottles I received held a month's worth of pills which worked out perfect as I was to follow the supplement routine for 4 weeks time and document my progress throughout

#### My Test 4 Week Acai Berry Diet: Acai Berry + Colon Cleanse

- [Take one Acai Berry pill per day](#)
- [Take one Colon Cleanse pill per day](#)

#### My Results

##### Week One

After one week on the diet using both products I was surprised at the dramatic results. My energy level was up, and I wasn't even hungry, an apparent side effect of the Acai Berry which curbs the appetite.

I honestly felt fantastic.

And I didn't even change anything about my daily routine. On day 7 I got on the scale and couldn't believe my eyes. I had lost 9 lbs. But I still wasn't convinced as they say you lose a lot of water at the beginning of any diet. I wanted to wait and see the results in the upcoming weeks. But it sure was looking up! I now weighed under 140 lbs for the first time in years!

##### Week Two

After two weeks of using both supplements, I started the week off with even more energy and was actually sleeping more soundly than before. I was no longer waking up during the night and tossing and turning because my body was actually able to relax (this is a result of getting rid of the toxins I think). Plus I still managed to lose another 7 lbs, putting me at an unbelievable 16 lbs of weight loss, in just 2 weeks.

I must admit that I'm starting to believe that this diet is more than just a gimmick.

##### Week Three

After 3 weeks all my doubts and skepticism had absolutely vanished! I am down, 2 full dress sizes, after losing another 6 lbs. And I still have a ton of energy. Quite often, around the third week of other diets, you tend to run out of steam. But with the Acai Berry and Colon Cleanse diet my energy levels don't dip, but remain steady throughout the day. I no longer need that cat nap around 3pm in the afternoon! And I am even noticing that my stomach is digesting food so much better. No bloating or embarrassing gas after I eat!

##### Week Four

After the fourth week, my final results were shocking. I lost an unbelievable 25 lbs since starting the Acai Berry and Colon Cleanse diet! Actually everyone at News 6 is kicking themselves for not having volunteered to be the guinea pig. Using the Acai Berry and Colon Cleanse in week 4 I lost 3 more lbs. But to be honest I really didn't have much more than that left to lose. And I am definitely going to continue taking the Acai Berry afterwards because it has so many antioxidants and vitamins that makes my skin look unbelievable.

**I couldn't be any happier with the results.  
I Lost 25 lbs in 4 Weeks, No Special Diet, No Intense Exercise**

**Conclusion** Like us, here at News 6, you might be a little doubtful about the effects of this diet, but you need to try it for yourself; the results are real. After conducting our own personal study we are pleased to see that people really are finding success with it (myself included :)). And you have nothing to lose. Follow the links to the free trials I have provided and know that you are getting a quality product that works; no strings attached!

#### » Weight Loss Tips

1. Set a goal. Identify your ideal weight and set up a plan to start reaching your goal.
2. Don't be afraid to ask for and get help. You're not going to lose weight alone. Tell your family. Get support.
3. Vitamins are good for you. The American diet lacks essential vitamins and minerals. Balance your health with the best supplements.
4. Walk the Walk. You burn calories when you walk, did you know that? Keep active and balance your diet with regular exercise.
5. Sleep it off. To be an efficient fat-burning machine, your body requires at least eight hours of sleep a night. If you think that you're doing yourself a favor by sleeping less, you're mistaken.

Good Luck with your weight loss

Surplus auction websites are a new phenomenon that is quickly spreading through North America and Europe (like you have probably already seen). They are all over the internet in blogs and success stories of people who have apparently bought expensive items at very little cost. However, we were very skeptical of whether or not these surplus auction sites were real, so we decided to put them to the test. What better way to find the truth than to conduct our own study?

I wanted to **buy a new HDTV**, so I was put in charge of the test.

First, I did a ton of research on the subject to find out which surplus auction site was the most trustworthy and ultimately would be best suited for my test. After hours and hours of research I came to the conclusion that [Bid Banana Auctions](#) was best because of its wide variety of products and great reputation. The way these auction sites supposedly work is that you buy bids to bid against others in auctions. If you win, you get to purchase the item at a reduced price. [Bid Banana Auctions](#) had a new promotion, for a limited time, they are giving out 25 FREE bids on signup! This created an ideal situation for me, giving me the bids necessary to thoroughly test the site. ## Acai Berry Diet Exposed: Miracle Diet or Scam?

As part of a new series: "Diet Trends: A look at America's Top Diets" we examine consumer tips for dieting during a recession

**Karen** investigates the Acai Berry diet to find out for herself if this super diet works.

Acai berries are the latest weight loss fad. These so called Super Foods that you take as a supplement to lose weight have been getting a lot of international attention. And like you have probably already seen; they are all over the internet in blogs and success stories of people who have apparently used the pills and lost a ton of weight.

But we here at Channel 8 are a little skeptical and aren't sure that we've seen any real proof that these pills work for weight loss. So we decided to put these products to the test. What better way to find out the truth than to conduct our own study?

To get started, I volunteered to be the guinea pig. I applied for a free trial of [Acai Thermo](#). While there are ton's of Acai berry ads online, [Acai Thermo](#) is one of the most credible and trustworthy suppliers on the market. It included the free trial of the product and it did not try to fool me into agreeing to additional hidden offers. Another reason why I chose [Acai Thermo](#) is because it is the most concentrated and purest acai products on the market. This would give me the most accurate results for my test.

### Here is what Acai Thermo claimed on their website...

- Accelerates Fat Loss
- 4 Times More Weight Loss Than Diet And Exercise
- Boosts Energy
- Rich in Antioxidants

We were pretty skeptical, but wanted to find out for ourselves if this product could actually do everything that it claimed. Most of the success stories talk about combining acai berry with colon cleansing products to achieve maximum weight loss. I decided to do the same. The idea behind combining the products is that while the [Acai Berry](#) encourages weight loss and increases energy, the colon cleanse helps rid your body of toxins and allows your body to work and burn calories more efficiently. I chose [Advanced Trim](#) to test.

### Here is what Advanced Trim claimed on their website...

- Helps Eliminate Bad Toxins that have Built Up Over the Years
- Removes 'Sludge' from the Walls of the Colon
- Helps Get Rid of Gas and Bloating
- Helps to Regulate the Metabolism

And the Advanced Trim, like the Acai Berry, had a free trial with a 100% satisfaction guarantee and had no hidden offers.

### Putting Acai to the Test

Karen Lische, our Health and Diet columnist, recently put the Acai Diet to the test. After four weeks of testing the effects of America's Newest Superfood combined with a Colon Cleanse, she has reached the conclusion to what this diet is all about, and the results were surprising.

#### She lost 25lbs in 4 weeks.

The benefits of the Acai berry diet beat all of our initial skepticism. We found the diet not only with weight loss, but it seemed to boost energy levels, and also helped Karen sleep better and to wakeup more rested.

# 1 Tip of a Flat Belly: A Surprising New Way to Burn Fat Quickly

As part of a new series: "Diet Trends: A look at America's Top Diets" we put new diet and fitness techniques to the test

Featured on:

**Karen Simpson** investigates a promising weight loss solution that is quickly gaining popularity in the U.S. and around the world.

By Karen Simpson | Published: March 15, 2011

**Beverly Hills, CA (WeeklyHealthNews)** - Losing weight often feels like an impossible challenge. We have evaluated numerous fad diets over the years. All too frequently their results are just shy of painfully disappointing.

The reason for why most diets fail, in our opinion, is that they impose unrealistic restrictions on how you live your life. Some advocate eating tons of protein others emphasize carbohydrates. In either case, you're left with having to make rather drastic changes to the types of food you eat and when you eat it. In this special report, we take an in-depth look at an emerging and promising weight loss trend that we believe is a game changer, and it won't break the bank.

You may have heard of the enormously popular Acai berry in the news. It's a completely organic berry found deep in the Amazon rainforest of South America. Alone the Acai berry offers many benefits primarily due to its high anti-oxidant content. Combine it with a powerful colon cleanser, and you've created a fat burning machine. If you're skeptical, you're not alone. When we first learned about this weightloss combo, our diet fad radar went off right away.

Nevertheless, as we began to investigate the countless success stories reported by people from all around the globe, we decided that this weight loss trend was worthy of a closer examination. Moreover, we found it of particular interest that these people had not significantly changed their current lifestyles.

**Ella Regan from Beverly Hills, California was reported to have lost 46 pounds in 3 months while being on the [LeanSpa with Acai](#) and [Colon Cleanse](#) combo diet.**

In the story on her blog she states,

"I couldn't believe how easy it was. I didn't change my diet or my daily routine, but the fat melted off like butter. I love this stuff! Finally a diet that just works."

For the Weekly Health News test, it was inevitable that I was to be the guinea pig for this diet

# Consumer Watch: E-Cigarette Review

## Electronic Cigarette Review: Consumer Reports

December 10, 2010 | Author: Senior Editor

A new form of smoking dubbed "**vaping**" is gaining popularity in many countries across the globe. Although these cutting edge technology **electronic cigarettes** don't produce actual smoke, they definitely provide the nicotine fix.

(CWR) — What if I told you that you can smoke a cigarette anywhere you'd like, without fire, smoke, smell or deadly chemicals? Do I have your attention yet?

### Consumer Reviews Weekly: Electronic Cigarettes

Claire Prince, a veteran Health reporter from Seattle reports on a new breakthrough in smoking. It's a revolutionary new way to smoke cigarettes in public without harming yourself or others.

The **E-Cigarette** is the newest and greatest of innovations and it's taking the planet by storm, but how will electronic cigarettes affect your health? It is a smokeless and tar-free cigarette that is the complete opposite of traditional cigarettes that we have all been accustomed to see. During our research we came across many companies that sold electronic cigarettes, so we made a price comparison of the most popular e-cigarettes on the market today: **The Original E-Cigs**, **South Beach Smoke e-cigarette**, **Smoke Assist e-cigarette**, **Prado e-cigarette**, **V2 e-cigarette** and last but not least: **Vibe e-cigarette** (See the **Electronic Cigarette Review Comparison Table** below!).

The most often asked question is "Are Electronic Cigarettes Safe?". Let's compare traditional tobacco cigarettes to the e-cigarette: Tobacco cigarettes contain some 400+ different **chemicals** of which 43 are known **carcinogens**, while Electronic Cigarettes only have **about 8 ingredients**. Tobacco smoking increases risks of developing **cancer** of the lungs, mouth, nose, larynx, oesophagus, pharynx, pancreas, bladder, renal pelvis, stomach, kidney... Tobacco cigarettes are one of the leading causes of death in the USA with over 400,000 victims yearly, nearly **20%** of all U.S. deaths. All this trouble just to get a **nicotine fix**? Maybe the e-cigarette **will** save the day. Given all these facts, electronic cigarettes may actually **save your life!**

Randy Tangier, a smoker of 22 years, heard about E-Cigarettes while in Las Vegas. He was finding himself more irritable trying to find places to smoke since most bars and restaurants no longer allow their patrons to smoke inside. While in Vegas, Randy witnessed countless people **smoking** these new e-cigarettes in many **public places**. Upon returning from his trip he did some research and came across a company that was giving away free trials of their product.

*Randy: "I consider myself a smart shopper so I found and ordered the free trial, and within 3 days I had the ecig kit at my door step. Soon after trying it out I threw away my last pack of tar-ridden cigarettes and I haven't looked back since!"*
